April 29, 2015

Kelly Henderson
City of Louisiana
202 S 3rd St
Louisiana MO 63353

MEC No. 15-0006-I

Dear Mr. Henderson:

The Missouri Ethics Commission considered the complaint filed against you and the City of Louisiana at its April 28, 2015 meeting. The complaint alleged that you and the City of Louisiana failed to comply with state law and local ordinance regarding the competitive bid process used to purchase certain products for the city. Further, the complaint alleged that you, owner of Titan Chemicals, failed to report certain transactions between your company and the city.

The staff review of this complaint found that the city has complied with its bidding policies during the two year period reviewed. Further, staff determined that you were not employed by the city at the time your company contracted with the city and transactions between you and the city were properly disclosed on his financial disclosure statement.

From the facts presented, the Commission finds no reasonable grounds exist to support a violation and is dismissing the complaint.

Sincerely,

A handwritten signature in cursive script, appearing to read "James Klahr".

James Klahr
Executive Director
